Comments Report

6. Open Response:

^{6.1)} What are the strengths of this course?

- It was challenging in the sense that I had not worked with some of the materials before. I loved it.

^{6.2)} What changes would you recommend that would improve this course?

- Hold students accountable. If the project deadline comes and students are late, unless there was an emergency, penalize them and move on. I'm not heartless and I understand it's art, which in some cases, takes longer than expected. However, in no other course (or future job) can you turn work in late or hold up the progress of others, without penalty.

^{6.3)} Any further, constructive comments?

- One project was easier for me to work on at home simply because all my stuff was there. Transporting that stuff was an issue. Although I enjoyed that project, projects such as the plaster one, are easier to do in class because all the materials are there.
