Comments Report

6. Open Response:

6.1) What are the strengths of this course?

- I would like to see this evaluation have further options to respond to the questions with additional comments to elaborate on the learning experience. This was an extremely fast paced class. Overall this COURSE was very hard in terms of the work load, however; the INSTRUCTOR was amazing! I understand this is a mini semester and very fast paced, but again this evaluation should be amended to further explain why you stated VERY UNLIKELY, etc.

6.2) What changes would you recommend that would improve this course?

- Upon selecting these online classes or mini semesters the advisors should have knowledge of the supplies/technology you need to succeed in the classes at hand. I think knowing that Macbooks are not a good source of laptops for this class as some material is not available with a macbook.

6.3) Any further, constructive comments?

- No, overall the professor had great communication, if you needed to get a hold of her she would promptly respond to you emails and answer any questions you would have. Again, this class overall was dissatisfying to me because as a beginner with computers this class was very difficult, but this is something I think the advisors should be aware of so they can communicate this to the students. I completely hold myself accountable each failing grade, but I wish that could've been different for me. Thank you Mrs. Gregory! =)
