Comments Report

2. More Than One Instructor:

- ^{2.1)} If your course had more than one instructor, in the box type the name of the instructor you are assessing. If your course only had one instructor, skip this question.
- Dr. Quiros

6. Open Response:

- ^{6.1)} What are the strengths of this course?
- I like that the mini lecture was a summary over what well cover in lab rather than a lecture. The workload was very reasonable, and instructions were fairly clear. Loved this class more than the lecture
- N/A
- Professor is patient with students and makes the learning material easy to comprehend
- The experiments and the teaching
- The labs can be a lot of fun
- Very structured, students are always aware of what is expected of them.
- ^{6.2)} What changes would you recommend that would improve this course?
- Change in octave. Still very monotoned. That is all:)
- Make sure all lab materials needed for the experiments are available to students (reference charts, beakers, etc.)
- More of a clear way to study for lab quizzes
- N/A (2 Counts)
- Nothing everything's great
- ^{6.3)} Any further, constructive comments?
- It was a good class!
- N/A (2 Counts)
