## **Comments Report**

## 1. Student Information

- <sup>1.3)</sup> Other reasons (please specify)
- Being in a class that is online and in-person is just easier to interpret into my work and life schedule

It is a hybrid course, therefore it occasionally has in person class periods.

2. I use the following computer system or device to access my online course(s). (check all that apply)

3. Your Course

- <sup>3.4)</sup> Please add any comments you would like to share.
- I really liked my professor for this class and I think he taught very well but I did learn that online classes are not for me. I will be leaning more towards all in-person classes.
- This course works well with my schedule and it not too overwhelming.

4. Services and Technical Support Rate your level of satisfaction with the BC services for this course.

<sup>4.14)</sup> Please comment on BC support for online classes.

They are nicely organized and once you learn how to operate D2L, it is super easy to navigate whatever you need.

Professor Quiros was honestly a really good instructor. He responded to my emails regarding homework, quizzes, etc. fairly quickly and he always explained what the question was in great detail. He also was very understanding when I had a family member pass away, he gave me extensions on my schoolwork and let me just do school work for him online for a couple of classes.

## 9. Final Comment

- <sup>9.1)</sup> The comment box provides a chance to anonymously communicate any specific impressions (either overall impressions or impressions about particular and specific things) to the instructor. Please feel free to write a lot in the comment box since your feedback is probably the single most important way that courses get better from one semester to the next.
- I believe that the professor was really attentive and explained each chapter very well. It was an 8 a.m. class and I never felt tired or anything because he made learning interesting.

- This course is a nice course and it isn't too demanding. Dr. Quiros did seem lost at first, but we can't blame him due to how weird Covid made everything for us. He quickly adapted and made the in-person and online activities easy to access and understand.
- i loved the inperson labs i wish all of them were in person because seeing it in person just makes more sence then watching videos
