Comments Report

5. Comments

5.1) Your instructor will appreciate any comments you have concerning the course or his/her teaching.

- Dr. Quiros is an excellent professor and instructor, he always makes sure to answer our questions and gives us opportunities and as much content as possible to study to make sure that we pass his classes.
- Dr. Quiros provides a lot of materials and all of them aid in the success of the course.
- Dr. Quiros was definitely not the worst teacher I've ever had. He showed up to class on time and was willing and able to help me with me questions. My only real problem was how the class was it didn't really prepare me for my test and quizzes. It was your basic lecture and note class with no real class work to make sure you understand each topic we go over. I personally struggled on the tests even though I studied at least an hour and a half on each test. So my only real grievance is how the class was taught not Dr. Quiros himself.
- His power points are easy to follow along and the study guide provide for each exam makes a great study tool
- I like that he works with his students and tries to accommodate them as much as he can. however, i do wish that the lab materials for when we are online were a bit clearer because most of the stuff i have had to teach myself which is quite hard.
- I think Professor Quiros does an excellent job teaching. My only critique is that I wish his test reviews were more clear for what he wants us to review.
- Maybe try to make lectures more fun. It is hard to remember all the information.
- Overall I really enjoyed the class. The instructor did a really good job on explaining his subject that we were learning that day. For his lab I wish there was more power points or references that we could go back to. I really didn't understand half of the labs that we did on our own, but I managed. He also made himself available too which helped, but it would be nice to have something to go back to and review for the quizzes that we had on the lab. I also liked how he was understanding about things and was considerate that students had a life outside of school.
- Thank you for being awesome! I am going to miss being your student! Good luck next semester!
- he is a great teacher and really wants us to do well in his class. anytime ive had problems or missed test or other things he has been very flexible in helping me get those things done and turned in. his teaching is not what im normally used too but he explains the marterial very well.
- i think fill in the blank notes will be better so it will be eaiser to fill in and study.
