Comments Report

6. Open Response:

- 6.1) What are the strengths of this course?
- The assignment timelines. They are very well placed out and gives us enough time to work on them.
- The professor's communication is very strong and helpful in this class.
- The teacher is super kind and understanding if things happening in life. Also the work load is not to heavy. Us usually the Power Points are very informative and easy to understand.
- Very straight forward and taught well.
- very complex and challenging for those that want to pursue a field closely related to biology
- 6.2) What changes would you recommend that would improve this course?
- During the lecture, instead of just reading the words on the ppt. explaining and using examples.
- I really Prefer more frequent short exams over less frequent long exams.
- I wish we had study weeks with no reading and we could just prepare for the exams.
- Quicker grading times so that we can keep on top of our grades.
- exams need to be more relevant to content taught in class and on the study guide.
- ^{6.3)} Any further, constructive comments?
- No
- Overall this was a good course, I just wish that the instructor spent more time on lectures. My instructor was very good at grading in time and answering any emails I had and was kind.
