- ^{9.1)} The comment box provides a chance to anonymously communicate any specific impressions (either overall impressions or impressions about particular and specific things) to the instructor. Please feel free to write a lot in the comment box since your feedback is probably the single most important way that courses get better from one semester to the next.
- I loved this class! The professor was great, and always willing to do what she can to help me understand the material and do better. She is great about answering questions and clarifying mistakes or any confusion. She is also willing to help students when they are struggling with an assignment. Her lecture videos and slides help better explain the textbook, which assumes that the students already know quite a bit of biology. I would definitely recommend this class to fellow students at BC.
- Made learning Biology fun, and I enjoyed her video lectures a lot. I was excited to watch and take notes.
