

Joel Quiros GENERAL BIOLOGY I ONLINE (BIOL1306 42211S)

Survey Evaluation Results 2021 Fall (16-Week - 211S) - GENERAL BIOLOGY I

Dear Instructor,

Below you will find the 2021 Fall (16-Week - 211S) evaluation results for your online class, "GENERAL BIOLOGY I ONLINE (BIOL1306 42211S)".

The overall indicator is listed first.

The second part of the analysis lists the average values of all individual questions.

Comments are listed at the report's end.

If you have any further questions do not hesitate to contact our department.

Best regards,

Leslie Cummings Research Analyst, Institutional Research Brazosport College 500 College Drive Lake Jackson, TX 77566 (979) 230-3256 leslie.cummings@brazosport.edu Joel Quiros 2021 Fall (16-Week - 211S) GENERAL BIOLOGY I ONLINE (BIOL1306 42211S) GENERAL BIOLOGY I ONLINE (BIOL1306 42211S) No. of responses = 5

Comments Report

3. Your Course

- ^{3.4)} Please add any comments you would like to share.
- Dr. Quiro's always responded to email's quickly in response to any questions, and has been more than fair. He truly made my first online class experience a great one.
- The class was very organized and gave plenty of resources for help for the subject matter.

4. Services and Technical Support

Rate your level of satisfaction with the BC services for this course.

- ^{4.14)} Please comment on BC support for online classes.
- BC provides good support.
- I have not used it this much this year because I am pretty adjusted to online learning however they have been helpful in any time of need for me no matter how small.

5. Course Design

Course activities (assignments, discussions, quizzes)....

- ^{5.13)} Please add a comment about the course design.
- I think that the video lectures could have been better. I never fully felt prepared entering a exam because although the lectures were informative I felt I was guessing what I really needed to know to ace the exams. I never figured this out and never felt satisfied with my grades and felt defeated because I never was clear with what was going to be on the Exam.
- The course design was outlined clearly and was easy to access.

8. My instructor....

- 8.4) Please add any comments you would like to anonymously share with your instructor.
- This was a great online course. I honestly was surprised how much I learned since I personally have a hard time with this particular way of teaching being mainly note taking and talking.
- Very amazing at responding promptly and I feel that he is very knowledgable about all things biology related.

9. Final Comment

- 9.1) The comment box provides a chance to anonymously communicate any specific impressions (either overall impressions or impressions about particular and specific things) to the instructor. Please feel free to write a lot in the comment box since your feedback is probably the single most important way that courses get better from one semester to the next.
- I believe that this professor is very smart and knowledgeable but could do a better job at explain the material to the students. I feel that sometimes I get very lost and I am not really able to engage with the material because of the way it is presented to me. Although this professor is very kind and knowledgable and very amazing teacher I wish there was some more material that connected with the exams so I was not always left completely lost when it came to the test.
- I feel as though Dr. Quiro's was very organized. He always grades and responds to students in a timely manner. I especially loved that previous years SI leader material was available for us to review (from Megan Fulton). Her video's and review work allowed me to understand things a bit better. I hope to continue having great SI leaders in my future science classes. Lastly, aside from Dr. Quiro's one thing that would be SO beneficial to me as a student would be to continue offering online courses, including lab. I find that online works best for me and my situation, however when I tried to apply for an online lab for next semester, there was not one available for what I need (A&P 1 LAB), so unfortunately I will most likely be unable to take that at the same time, which I don't love. I would love and appreciate seeing at least one course for the subject online for students like myself who have a hard time getting to campus due to personal reasons.
- This class taught me a lot and provided me with the basic knowledge I need for biology so far.
