	longer than	three weeks						0%	

Comments Report

1. Student Information

- 1.3) Other reasons (please specify)
- Because of scheduling. The only way I could take lab with my current work and school schedule was online.
- 2. I use the following computer system or device to access my online course(s). (check all that apply)
- ^{2.5)} Other computer system or device:
- The computers at the school.

3. Your Course

- ^{3,4)} Please add any comments you would like to share.
- The biggest downside of this course has been that I can only access the Simutext software at the main campus and nowhere else. The software has been pretty fun to use, so that's good.
- Services and Technical Support
 Rate your level of satisfaction with the BC services for this course.
- ^{4.14)} Please comment on BC support for online classes.
- It's been pretty good, all things considering.
- 5. Course Design

Course activities (assignments, discussions, quizzes)....

- ^{5.13)} Please add a comment about the course design.
- I wasn't able to interact with other students taking the course so I don't have much to say about that. Otherwise, it was a pretty good experience on my own.
- 8. My instructor....
- 84) Please add any comments you would like to anonymously share with your instructor.
- The lectures were easy to follow. The SI instructor was not very helpful. I really struggled with this course. I feel a lot was to do with the SI instructor. A lot of her feedback to questions I had was "I don't know" or "I don't know why"

9. Final Comment

- 9.1) The comment box provides a chance to anonymously communicate any specific impressions (either overall impressions or impressions about particular and specific things) to the instructor. Please feel free to write a lot in the comment box since your feedback is probably the single most important way that courses get better from one semester to the next.
- For some reason, I thought we would be using D2L a lot more often. I did like reading those articles although the quizzes were still kind of tricky for me personally. I really did enjoy using the Simutext software and it worked great on the BC computers anyway. Overall, I'd say it was a pretty good online class experience and I would recommend it to someone else!
- Please get new SI leader for this subject
