# Comments Report

## 2. More Than One Instructor:

2.1) **If your course had more than one instructor,** in the box type the name of the instructor you are assessing. If your course only had one instructor, skip this question.

- Joel Quiros

## 6. Open Response:

6.1) What are the strengths of this course?

- Everything that you are tested on is provided to you on power point so as long as you study on the information presented to you, you will pass.

- Getting to learn at my own pace and the very specific instructions were easy to follow.

- The strengths for this class are that the information that we go over will help me with my future career.

- The video lectures are very helpful for the exams, the instructor also provides very helpful study guides for the exam.

- work load is a good amount and he explains things very well

6.2) What changes would you recommend that would improve this course?

- Honestly I have no changes. I think the course is very well put together.

- I think the study guide should have an example of what type of short or long answer question that are going to be on the test.

- Nothing really.

- Only changes in this course with it being so fast paced, I would adjust having to do a lit rev paper. I mean it is doable but its very difficult to find time to do it and attend writing center when taking the fast paced lecture and lab all together on top of possibly other classes.

- none

6.3) Any further, constructive comments?

- Dr. Quiours really is a great instructor his way of teaching is very understandable, he doesn't only want you to memorize the material but actually understand it. His testing can be challenging but he does provide us with very well informed lecture videos that teaches us what we could possibly be tested over. No surprises on his exams.

- N/A

- No thank you

- Nope, class all good.
