6. Open Response:

- ^{6.1)} What are the strengths of this course?
- For this course students are allowed to meet with an SI (student instructor) and have tutoring sessions both, online and in person. I attended the in person sessions and it was very beneficial to me in this class.
- ^{6.2)} What changes would you recommend that would improve this course?
- There was a rule for the in person tutor sessions that it required three students to attend to have the session. I found this to be a very frustrating rule, and inhibiting to the other students who want to attend. I feel the other tutoring centers do not require this rule, so I feel the same should also apply to science classes.
