- ^{9.1)} The comment box provides a chance to anonymously communicate any specific impressions (either overall impressions or impressions about particular and specific things) to the instructor. Please feel free to write a lot in the comment box since your feedback is probably the single most important way that courses get better from one semester to the next.
- The additional videos that the professor provides specifically for the online students are really helpful, it feels more one on one. Overall with the Physiology class, it is excellent & I really like the professor.

And as for the lab, at the beginning of the semester it felt one on one but the last couple labs I have completed, were kind of "here is this info and learn it".

I think when signing up for A&P, I think students would benefit a lot more taking the class in person.
