Comments Report

6. Open Response:

6.1) What are the strengths of this course?

- I learned so much from this course. The professor made sure myself and my peers knew what was expected of us, what we needed to know, even took the time to make sure he wasn't speaking too fast for all of us. He cared enough to make sure we knew everything we needed to know to be successful.
- Information was provided in a way that allowed me to grasp, apply, and add to it without confusion. The professor was also very helpful and allowed me to understand information when it proved to be difficult.

6.2) What changes would you recommend that would improve this course?

- There isn't much that can change.
- none

6.3) Any further, constructive comments?

- I can not even think of anything I'd say to give constructive criticism. I will be taking the next set of these courses with the same professor.
