- ^{9.1)} The comment box provides a chance to anonymously communicate any specific impressions (either overall impressions or impressions about particular and specific things) to the instructor. Please feel free to write a lot in the comment box since your feedback is probably the single most important way that courses get better from one semester to the next.
- I don't have much to say. I enjoy the course structure and the information is easy to understand if you put in the effort. It's not super challenging but that's not a bad thing because it makes students more interested in learning. The lab outlines are very helpful and SI sessions were helpful for me at the beginning of the course until I got a clear idea of what I needed to do on my own.
