Comments Report

1. Student Information

- 1.3) Other reasons (please specify)
- I tend to babysit often or I have to work
- all the labs were online

5. Course Design

Course activities (assignments, discussions, quizzes)....

- ^{5.13)} Please add a comment about the course design.
- I do wish that there were more to go off of regarding our course content. Perhaps more visually-recorded lectures for the online class? Most of us students are already unfortunately taking a difficult class that should be taken in person.

9. Final Comment

- 9.1) The comment box provides a chance to anonymously communicate any specific impressions (either overall impressions or impressions about particular and specific things) to the instructor. Please feel free to write a lot in the comment box since your feedback is probably the single most important way that courses get better from one semester to the next.
- I am not sure if it is normal for instructors for lab courses to give out extra credit... but in some cases, I wish there were small assignments given as opportunities to gain a few needed points.
- The course content was very organized and straight forward!! Great course!!
