Comments Report

2. More Than One Instructor:

- 21) If your course had more than one instructor, in the box type the name of the instructor you are assessing. If your course only had one instructor, skip this question.
- Joel Quiros

6. Open Response:

- ^{6.1)} What are the strengths of this course?
- Caring instructor, knowledgeable of material and always available
- He is an amazing teacher and is really easy to talk to. He try's his best to help when he can and really cares about his students.
- This course is hands on and as someone who learns best that way I really enjoyed this class
- We all get to work together and discuss our labs.
- 6.2) What changes would you recommend that would improve this course?
- Considering this is 1.00 credit hour course I feel as if there is too much of a work load. This class required a lot more of my time compared to 3.00 credit hour classes. There were a couple more assignments we were suppose to do but unable to due to the supply demand but nonetheless it required a lot of time.
- I would reflect on the organization of the labs. It often got chaotic when trying to work through the busier days.
- Lab slightly disorganized too many projects
- The class is too long and there was too much information crammed into one class period. Time was always an issue. We went over the allotted class time a lot.
- n/a
- 6.3) Any further, constructive comments?
- Lab seemed very chaotic and unorganized at times.
- no
