1.3) Other reasons (please specify)

- Online course suit my daily schedule.

3. Your Course

3.4) Please add any comments you would like to share.

- Dr quiros was very good about keeping us posted on test / reminders/ and any changes

- The only thing I wish is that all of the videos have CC on them. Some do and some don't.

- This course has online quizzes and in person lab meetings. So far i love the idea of going in person in the lab and do all the experimentation in person. Quizzes online is great because it works so well with my work schedule.

4. Services and Technical Support
Rate your level of satisfaction with the BC services for this course.

4.14) Please comment on BC support for online classes.

- Most of my activities involved online and i like this idea that almost everything is accessible online. So far my professors this semester are very responsive and they help so much on all my questions.

5. Course Design
Course activities (assignments, discussions, quizzes)....

5.13) Please add a comment about the course design.

- The course is well-explained. There is nothing that made me confused since i started it this semester. There are few questions i had but it was all addressed.

8. My instructor....

8.4) Please add any comments you would like to anonymously share with your instructor.

- Always responded in a quick timely manner.

- Great class and I learned a lot. I look forward to continuing using the information that I obtained in this class.

- The professor in this course is very helpful. Considerate and understand my concerns in this course. Explained the materials specifically and fair in grading system. He also make sure that the class understands the lectures. The only thing i think i would like to address is that after our online quizzes i would like to see my mistakes after the quiz. Aside from that everything went well on this course.

9. Final Comment

9.1) The comment box provides a chance to anonymously communicate any specific impressions (either overall impressions or impressions about particular and specific things) to the instructor. Please feel free to write a lot in the comment box since your feedback is probably the single most important way that courses get better from one semester to the next.

- As i mentioned above, our professor in this course is very helpful. He is fair but considerate at the same time. I enjoyed my in person lab and it was never boring to me.

- Dr quiros was one of the best professors i had at brazosport. He actually get very intrested in microbiology. He is very understanding and really cares for his students to pass his class. He offers extra credit , which is so great especially someone that just needs that little nudge. He was willing to answer any question and he asked for replies from any test or quizes we took. Made this hard course "easy" to understand . Way TO go !! Keep it up dr q. You are touching many students and opening students to another part of science

- I learned a lot this semester. Dr. Quiros is very knowledgeable in microbiology, and is very understanding and eager to help clarify anything that you need.
