6. Open Response:

6.1) What are the strengths of this course?

- One of the best professors i've had. He makes lectures fun and makes everyone laugh. He explains the material in a way that I understand and the workload for the class is nice.

- The information was useful and my professor did not present the information in a boring or unhelpful way. He allowed us to understand what were were learning and feel confident about it.

- The instructor allowed students to have a (SI) tutoring session within class before the exams and also before the final exam. This was beneficial as for this class, I was not able to attend the (SI) tutoring sessions this semester. There was also a few extra credit opportunities offered to students this semester. Anatomy is not an easy class so I was glad to be offered some extra credit.

6.2) What changes would you recommend that would improve this course?

- n/a

- none

6.3) Any further, constructive comments?

- n/a (2 Counts)
