Comments Report

- -

2. More Than One Instructor:

2.1) **If your course had more than one instructor,** in the box type the name of the instructor you are assessing. If your course only had one instructor, skip this question.

- ■ Dr Quiros

6. Open Response:

6.1) What are the strengths of this course?

- ■ Dr Quiros' ability to demonstrate and explain very complicated material

- ■ Dr. Quiros has been one one of my favorite professors to this day. Something that I'd consider a strength is how much he harps on attending SI, before taking this course with him I never consistently utilized SI sessions, but with the incentive of extra credit, I was there. Without SI and the encouragement to get help with the course when needed my average would definitely not be an A.

- ■ He made sure to always check in and make sure students understood.

- ■ I have many strengths in this course, my biggest strength is being able to quickly and efficiently understand the information that Mr.Quiros is teaching. I am able to learn and do well on my exams because I find Mr.Quiros's lectures interesting and he thoroughly explains what he is teaching that day.

- ■ I like that what we are told to study with the initial study guide for each unit matches what is over the exam. He has not thrown in any information on an exam that we have not seen in lecture.

- ■ I liked that he was understanding and explained things in layman's terms

- ■ Instructor provides very detailed slides according to coursework being reviewed. Great review material.

- ■ Lecture videos are available usually after we finish a chapter and it allows me to go back and study more effectively. The schedule is clear and not many changes were made to it so I was able to keep track of due dates and assignments. I like that our lowest test grade gets dropped.

- ■ Professor Quirros did a good job of providing multiple different ways of displaying test questions which I enjoyed. He also made a point to ask what our thoughts were upon the test after completion, which I think that is quite considerate. It is obvious the professor Quirros displays a kind genuine care for his students and their learning as he takes the extra step to completely explain every learning subject in thoroughly, and continues to go over the subject until there are no questions and every class member has understood the information given.

- ■ The professor was always willing to listen to what the students had to say and take recommendations into consideration. I loved how if you thought that he was talking to fast you could ask him to slow down and if at any time you had a question or needed more clarification he never hesitated to make sure you fully understood.

- ■ The strengths I acknowledged during this course was learning to proper way to take notes during each chapter and keep track of daily quizzes.

- ■ The strengths of this course were Dr.Quiros always had his tests related to the material we studied over during the class. He never snuck up anything we didn't do in class which I greatly appreciated.

- ■ This course taught by Dr.Quiros will definitely help you with time management and learning your own way of studying. Dr.Quiros is a kind and understanding professor. He understands that we have lives and other classes outside of his therefore he tries his best to give out bonus points and make the tests manageable. All of his power points are fair game for the test. He's always willing to talk and motivates everyone. This is definitely a class you have to try and study for you can't just expect to put in no effort and expect a good grade then blame it on him.

- ■ This professor taught the information where I can understand it and learn it. He has no problem slowing down for students and answering all questions.

- ■ studying

6.2) What changes would you recommend that would improve this course?

- ■ Could you get rid of the disease paper? Most of us are already in an English course and have to write 2-3 pieces at a time, and the disease paper adds to our workload.

- Dr. Quiros could require more assistance with his other classes.

- I believe there is nothing to really change from this course.

- I do not have any recommendations for this course.

- I enjoyed this course so i personally would not change anything

- I have no changes for this course.

- I personally don't like writing essays so I would prefer there was just a PowerPoint disease project instead of a PowerPoint and essay.

- I would not make any changes to this course, I enjoyed it.

- I wouldn't change anything from this course.

- I wouldnt make any changes to this course I think this course was challenging but manageable at the same time.

- More involvement or interactions among instructor and the students. My group work, group discussions, etc.

- None

- None at all!

- Slower when explaining slideshow.

- none

- none the class is amazing

6.3) Any further, constructive comments?

- He was an exceptional professor and in any other course that he teaches in the future I would take his class. I highly recommend his classes. He makes everything perfectly clear!

- I'd say the only downside is that we don't get through all of our powerpoint slides sometimes which then you have to learn on your own.

- N/A (3 Counts)

- No

- None

- Sometimes you talk too much during announcements, and we can't get through our notes, so we could cut out time for reports and get straight into the lecture.

- n/a

- no
