6. Open Response:

6.1) What are the strengths of this course?

- This has, by far, been the most educational and beneficial course I've ever taken... and I've already been through the LVN program! Mr. James has a way of explaining and teaching material that really helps you to learn and understand, rather than just memorize. It's stressful, it's a lot of material and it takes a lot of dedication to benefit from this course, but so does every career in the medical field. If you put in the time, put in the effort and make the sacrifices, you will learn so much from Mr. James, like really learn. I've already suggested that my husband specifically take any courses he needs that Mr. James happens to instruct! I am already an LVN, have been for years, and now have a better understanding of so many things that I knew before but maybe didn't know the how or why. Amazing course, amazing instructor!

6.2) What changes would you recommend that would improve this course?

- Honestly, I can't really think of anything at all. I think I will try to take his class in-person next semester, if possible, but no changes I can think of that need to be made.

6.3) Any further, constructive comments?

- No
