6. Open Response:

- ^{6.1)} What are the strengths of this course?
- Dr. Quiros is very knowledgeable and easily can "dumb-down" certain information for those not on his skill-level.
- I love how clear he is about the assignments and what is expected in this class.
- I love online courses and dr,quiros is great
- Learning about the human body. My professor has been excellent
- Subjects are broken into short, topic specific videos. This is very helpful for an online class because it feels much less daunting than having a video that is 1.5-3 hours long. This breaks subjects up into "bite-sized" pieces and helps me in better understanding the subject before moving on. I think this is a great outline for any online course and would absolutely recommend any instructor not currently doing this to reconfigure their online classes.
- The instructor gives quizzes which help a lot with the exams.
- Very informative and easy to digest and learn. Things were broken down clearly
- great communication, great resources, overall great instructor. Dr. Quiros has been one of the most helpful and understanding professor l've had during my college experience.
- ^{6.2)} What changes would you recommend that would improve this course?
- Faster grading. The anticipation ate me up
- I cannot think of changes I would recommend that would improve this course.
- I think more questions on the quizzes. The quiz usually has around 10 questions.
- No changes needed
- Nothing.
- no change
- no changes
- none (2 Counts)
- ^{6.3)} Any further, constructive comments?
- I've taken many science courses over my college career, he is by far the best teacher I've ever encountered.
- N/A
- No.
- amazing teacher. I wish i had him in person
