6. Open Response:

- ^{6.1)} What are the strengths of this course?
- For me this whole course are its strengths. I am starting a small business/family business so this course is completely significant for my career. It has taught me basically everything that is essential to starting a small business and how to make it successful. It has shown me how to make a business plan and strategy. It has given me the information I will need to research what I need to do for research, legal advice and the legal regulations/laws that I need to be aware of.
- The challenges of making you think outside of the box.
- The content is well organized and easy to understand. The instructor also responds quickly to e-mails.
- The course follows the syllabus very well.
- ^{6.2)} What changes would you recommend that would improve this course?
- Better communication and not have quizzes with questions on "our small business idea" because not everyone is taking the course to start a small business. It isn't relevant to me and makes it extremely hard to answer the questions.
- I would adjust some of the main guiz questions to be more specific to only the reading materials.
- I would not make any changes to this course.
- Nothing.
- There are no changes I would recommend. I think the course is good as is.
- ^{6.3)} Any further, constructive comments?
- I believe that this course should be taken by others not just those in the business courses. It is such a beneficial course with a great instructor that knows all the information for this course.
