6. Open Response:

6.1) What are the strengths of this course?

- It's easy to work and find the assignment due dates and if any questions teacher answers at a good time frame.

- The discussion questions weekly.

- The strengths to this course are the challenges that were presented within the work that were not so challenging that they were unable to be completed. It made for a fun, engaging class, even with it being online.

- This course was required for the degree program I am going for and it helped me learn certain things I did not know about.

- child guidance

6.2) What changes would you recommend that would improve this course?

- More opportunities to take study quizzes or study help, to make sure we truly know what we're covering before our exams.

- None at the moment.

- Really nothing to me everything seems fine.

- The instructions on a lot of the assignments were very vague, and because of it, one of the very first assignments I did in this course, I was given a zero on because I "did not follow instructions." Also, at the very beginning of the course, buying the correct material was a big mess because I bought the wrong material that I was told to buy, but apparently that material wasn't supported anymore, so I had to buy the correct one after that.

- none.

6.3) Any further, constructive comments?

- I like my instructor for this course, i do wish i was personally able to learn in person but overall my online experience has been nice as well.
