8.4) Please add any comments you would like to anonymously share with your instructor.

- I personally would have liked to have understand the grading point system better and as you know it took a long time for us to see our grades from mastering chemistry

9. Final Comment

Please feel free to write a lot in the comment box since your feedback is probably the single most important way that courses get better from one semester to the next.

- You were very thorough over the information we went over I just had a hard time staying with you because of how slow it would move at times. I know everyone learns at different paces and we had several people asking questions that I felt really held us back. I found that the lectures and the online mastering chemistry were two different worlds. I would understand everything we did in the lectures but as soon as I would go to do the online Mastering chemistry it was much more difficult. So after I would do the online portion and come back to lectures I felt like we were never getting to the information i never understood. The reviews and tests corresponded very well I just found that between your lectures and tests compared to online mastering chemistry were just completely different
