6.1) What are the strengths of this course?

- I cannot give a satisfactory answer to this question.
- None (2 Counts)
- The professor answering any questions we had and demonstrating us what to do.
- The use of Aleks to go with what we are learning in class.
- The work for this course follows a schedule that makes it easy to keep track of any assignments that are due.
- Working alone side a lab partner to help each other throughout the course.
- none
- the concept that we have the books to understand what we are learning and videos on the web.

6.2) What changes would you recommend that would improve this course?

- Be more involved with the class instead of just reading off the powerpoints.
- Get grades in
- More examples during class with clear explanations, a review that is accurate with what is included on the exams, and chances for extra credit.
- No, I have told people to not take this course and I am actually thinking of transferring schools, due to he is the only summer class available and future classes.
- The way the Instructor explains and teaches the material.
- There are not any changes that I can recommend for this course.
- To get our grades sooner.
- Use a program other than ALEKS.
- just change the instructor. he makes it seem like we already know what we are learning and we cannot understand what he is trying to explain at times.

6.3) Any further, constructive comments?

- I do not have any further comments.
- It would really be helpful to future students if feedback was given to turned in lab reports.
- N/A
- develop more into explaining in deep concept of the subject and understand that we are students trying to learn this concept and also need to understand we all have work and lives outside of school.
