Comments Report

6. Open Response:

6.1) What are the strengths of this course?

- He makes the labs very cut and dry and if we are unable to complete the lab we are able to work on it the following week.
- The labs are fun but the instructor makes it unbearable because he is so mean.

6.2) What changes would you recommend that would improve this course?

- If he would update the grades in D2L so we know what we are doing wrong while we have a chance to correct our mistakes for future labs and not at the end of the semester that would be great.

6.3) Any further, constructive comments?
