Comments Report

6. Open Response:

6.1) What are the strengths of this course?

- Able to do course work at your own pace.
- Some assessments are straight forward.
- The strengths are print reading. Will learn to read them. It is very necessary.

6.2) What changes would you recommend that would improve this course?

- In person classes. A teacher who answers emails in an orderly fashion. A teacher who actually teaches.
- Live class, more interactive with students.
- To my opinion. This course will be better if it is a face to face course, or a hybrid part in the classroom and part online.

6.3) Any further, constructive comments?

- N/A
- No more comments
- This class was an absolute terror. Multiple students have complained about the teacher and his "teaching", or lack there of. I feel that this teacher made videos years ago and just repeatedly just reposts them and doesn't do anything at all. The videos he does post don't contain anything other than him just reading. I'm so frustrated that I had to pay to take this class and feel like I wasn't taught anything. The class was horrible. I will avoid any other class this instructor might teach like the plague.
