6. Open Response:

6.1) What are the strengths of this course?

- Face to face with the instructor makes the course easier than an online class only

- That there is time to discuss everything to the class.

- The instructor is very insightful i wish we could learn from her work experience more than the book but the information from the book is still helpful. I dont think this class would be as good without her..

- The strength of this course is that we know what to read and know what is going to be tested on. There were no surprises and we just needed to read to get a decent passing grade.

6.2) What changes would you recommend that would improve this course?

- 3 hour course

- I think just more one on one time with the professor or let her speak into her proffesion experience.

- I would recommend the instructor to use D2L to post the class media. I would like to have it there to keep it organized and all in one place.

- Just longer than two hours for the class

6.3) Any further, constructive comments?

- No.

- None

- The instructor was easy to communicate with and offered multiple ways to communicate.
