

# Shayan Mirabi PROGRAMMING FUNDAMENTALS I (ONLINE) Survey Evaluation Results 2021 Fall (16-Week - 211S) - PROGRAMMING

Dear Instructor,

Below you will find the 2021 Fall (16-Week - 211S) evaluation results for your online class, "PROGRAMMING FUNDAMENTALS I (ONLINE)".

The overall indicator is listed first.

The second part of the analysis lists the average values of all individual questions.

Comments are listed at the report's end.

If you have any further questions do not hesitate to contact our department.

Best regards,

Leslie Cummings Research Analyst, Institutional Research Brazosport College 500 College Drive Lake Jackson, TX 77566 (979) 230-3256 leslie.cummings@brazosport.edu

# **Comments Report**

#### 3. Your Course

- <sup>3.4)</sup> Please add any comments you would like to share.
- The class is not supposed to have complex programs like the ones we currently have. These programs we do, should be programs for the Programming Fundamental II, where it is more advanced. Apart from that, the work that was supposed to help us do the work was sometimes wrong. We would get program examples, I would download and run them to see the result and they would not work. Many people in my class had trouble because of this and had difficulty understanding.

### 5. Course Design

Course activities (assignments, discussions, guizzes)....

<sup>5.13)</sup> Please add a comment about the course design.

The instructions were clear but not understandable because the lectures we did had nothing to do with the homework. This class definitely motivated me to learn on my own because the zoom meetings/lectures were not helping. I had to use YouTube as lectures and do my own research in order to turn something in.

Very few people attended the zooms, around 3-5 people. I reached out to a few people from my class to get a better understanding but we were all in the same boat.

## 9. Final Comment

- <sup>9.1)</sup> The comment box provides a chance to anonymously communicate any specific impressions (either overall impressions or impressions about particular and specific things) to the instructor. Please feel free to write a lot in the comment box since your feedback is probably the single most important way that courses get better from one semester to the next.
- The programs created for this class were very complexed and difficult even though it is only Programming Fundamentals I. I still tried to do my best and pushed through. The labs you posted that were supposed to help us had errors and wouldn't work for us. I felt like I had to figure out everything on my own, everything was very complicated and stressful. It would have helped a lot if the lectures had something similar to the programs we had to do but they were way different and had errors.
