6. Open Response:

6.1) What are the strengths of this course?

- The course load was not heavy nor was it too light. We had an assignment for every section we covered which helped to keep our minds active. You are given opportunities to go to the schools to do observations which is also a good way for us to network. The atmosphere is also great because you feel as though you are in a classroom in elementary school.

6.2) What changes would you recommend that would improve this course?

- The only thing I would recommend is maybe to have a week before class starts to reach out to school districts and start setting ourselves up to do observation hours there. Doing it when classes began seemed to kind of feel like we were being rushed and I feel having that week before would give us more time to set everything up.

6.3) Any further, constructive comments?

- None. Dr. Montiel is a wonderful professor and she continues to motivate us to become the teachers we want to be.
