6. Open Response:

6.1) What are the strengths of this course?

■ Dr. Montiel makes the lectures fun and engaging. There is always lots of conversation in her class and she makes you want to participate.

6.2) What changes would you recommend that would improve this course?

■ Better numbered assignments. We had many assignments to complete with assigned dates which were numbered like from 1-10 but were due out of order, i.e., assignment 10 due one week and then assignment 15, then jumped back to assignment 5. It was a bit confusing to keep track of.

■ No changes

6.3) Any further, constructive comments?

■ Dr. Montiel is an amazing professor, as a student who has been going to college off and on for sixteen years and has also gone to a university, she makes you feel like she cares about you as a person. You are not just another number or body in the seat of her classroom. She wants to see you succeed and will do what ever she can to help you reach your goals. I wish Brazosport had more professors like her.
