Associate of Applied Science (AAS) in a technical area	63.6%	
Certificate in a technical area	36.4%	
^{7.5)} I am currently a high school student taking college courses.		
Yes	9.1%	n=11
No [90.9%	

Comments Report

2. More Than One Instructor:

- ^{2.1} If your course had more than one instructor, in the box type the name of the instructor you are assessing. If your course only had one instructor, skip this question.
- SLOVARP P
- paul

6. Open Response:

- ^{6.1)} What are the strengths of this course?
- Great material, multiple in class examples and labs.
- The Labs
- The instructor ability to explain the material at a level of understanding to help everyone at different skill levels.
- The strengths of this course are that it gives examples of materials and equipment that is used in the "real world" and demonstrates how to use them properly as well as having hands-on learning available in our labs. The hands-on part is extremely valuable in my opinion.
- With the lectures going over the module together as a class and the professor answering our questions and doubts about a subject matter is absolutely perfect for the class.
- everything is very well explained and easily understandable
- great labs
- hands on examples
- the class is very informational
- ^{6.2)} What changes would you recommend that would improve this course?
- Have more lab time. It is the hands on skills that will help us succeed in the real life.
- I feel the course was thorough in covering the basics you would expect to come across in the commercial industry.
- I think the class is well balanced.
- N/A
- None i can think of
- a lab outside the classroom to do real world exercises like, running conduit, pulling wire, installing supports and electrical panels
- n/a
- none
- ^{6.3)} Any further, constructive comments?
- I have taken a lot of class at this College. Paul Slovarp is one the best instructors I've had.
- N/A
- ∎ n/a
- no (2 Counts)
- teacher is really good at their job and is very knowledgable
