n=8  
av.=5  
md=5  
dev.=0

#### 5. Course Recommendation:

5.1) How likely are you to recommend this course with this instructor to a friend?

n=8  
av.=4.8  
md=5  
dev.=0.5

#### 7. Student Demographics:

7.1) How many credits have you completed toward your degree or certificate?

n=8

7.2) This course is instructed as:

n=8

7.3) This term I am currently enrolled in:

n=8

7.4) My current major is:

7.5) I am currently a high school student taking college courses.

# Comments Report

## 6. Open Response:

6.1) What are the strengths of this course?

- Alan has a lot of experience in motors and transformers and explains them in the simplest form. Do a lot of hands on labs that correspond with the material
- Clear instructions before participating in hands on labs as well as being very informative about the sections we go over.
- It gives you a very fundamental understanding of transformers and motors.
- Lots of useful real world information
- The diagnostic tech area in my trade of motor control skills, has tremendously increased with great knowledge.
- Thorough in hands on portion.
- from the instructors i have had the pleasure of being in class with, they have all been very aware in the level of learning and knowledge from each student and provide the proper skills to be able to help and teach accordingly. Its also very hands on which is useful for retaining information .

6.2) What changes would you recommend that would improve this course?

- Alan does a great job and its clear he has worked to make this class informative and useful.
- I enjoy the way the course is currently taught
- I'll be the student and the teacher is at a professional level at his teaching.
- None (2 Counts)
- none (2 Counts)

6.3) Any further, constructive comments?

- I had a great time with the teacher and the class knowledge.
- None (2 Counts)
- no
- none
- nope
