## Comments Report

### 6. Open Response:

6.1) What are the strengths of this course?

- Nursing instructor should not be instructing Emergency Medical Medications as she was not prepared nor able to teach drugs that are used on the ambulance
- The knowledge of the instructor on the material.

6.2) What changes would you recommend that would improve this course?

- Have an instructor that has experience in the field
- Maybe give the instructor advice on prehospital pharmacology use? It felt like a lot of the class focused on nurses and in-hospital providers.

6.3) Any further, constructive comments?

- The instructor herself was awesome, just not capable or provided with the proper guidelines to teach the appropriate information
- no
