### 6. Open Response:

6.1) What are the strengths of this course?

- A nice workflow and easy instructions.
- Most of the content was good material
- N/A

6.2) What changes would you recommend that would improve this course?

- Give visual examples of what is expected for the essays.
- I think his instructions should be written and not on video, so its easier to refer back to instead of having to wait for the entire video to understand what we need to do. I also think grading should be more frequent, as the strategy students use for writing can be improved with feedback provided in a timely manner. I also think the time in the midterm and final can be increased. 1 hour for 3 essay questions with 2 paragraphs each can be time consuming, I would consider increasing for another 30 min.
- I would recommend having a schedule, and not overloading the students with work. He requires way too much in such a little time frame, the instructors are not very elaborated. He also required 4 midterms that are due on Thanksgiving Day.
- I wouldn't change a thing.

6.3) Any further, constructive comments?

- Great class, I have really enjoyed it so far!
- I understand some instructors are more strict than others and are hard on deadlines for a reason, however I do believe the is a time to be an understanding human being. Sometimes, medical situations do occur out of no where and I think it is okay to be lenient on these occasions. Sometimes these are for things they cannot control and cannot plan. I would be more considerate of what people have going on especially the short timespan to complete a lot of work.
