Certificate in a technical area	0%	
7.5) I am currently a high school student taking college courses.		
Yes	0%	n=4
No	100%	

Comments Report

6. Open Response:

- 6.1) What are the strengths of this course?
- Lots of variety on types of assignments.
- The assignments are not too difficult, which is great for students like me that need to be face to face to grasp the learning and to understand.
- 6.2) What changes would you recommend that would improve this course?
- One thing that I would change, and have discussed with other students who would agree that are in the same course, that majority of the lab assignments should not be having students go out into town to do something. Some of us have to do this course because it is hard to find time in the day to attend these classes in person, maybe some of work or just do not have access for a ride, and it's hard to have to drive 15 minutes away to take pictures, or anything like that.
- ^{6.3)} Any further, constructive comments?
- No.
