2. More Than One Instructor:

2.1) **If your course had more than one instructor,** in the box type the name of the instructor you are assessing. If your course only had one instructor, skip this question.

- Dr. Joel Quiros

- Joel Quiros

6. Open Response:

6.1) What are the strengths of this course?

- Gives clear instructions.

- Really getting into the topic of the chapter that is covered.

- The strengths of this course are the time managements and the easiness of the quizzes.

- The strengths were that the course was actually informational. I can truly say that I learned a lot and was pleasantly surprised at how interested I was in learning the material. The instructor was very involved with the lectures and extremely responsive to questions and concerns.

- Very interesting content, Dr. Quiros makes the content relevant to all fields of study. Clear instructions given for all assignments. Extra credit opportunities and study guides for exams are available.

- coursework was very manageable for me as I have a full course load and also work full time.

6.2) What changes would you recommend that would improve this course?

- I dont think I would change anything.

- My only real concern with the course was that, on the Lit review paper, the instructor states in the rubric that students need more than the 2 required sources that are requested in the assignment instructions. I found the instructions and rubric contradicting to each other. In addition, I do not feel as if going above and beyond the assignment instructions should be what earns a student full credit on an assignment. Full credit should be given when a student meets or exceeds the assignment instructions as they are given. Anything beyond what the instructions state should be bonus points or something to that nature. If more than the 2 sources are required to receive full credit than it should be stated in the instructions how many sources need to be used.

- No changes necessary.

- None

- None as previously stated this course was very manageable for a busy student

- The changes I would recommend that would improve this course is to give reminders about work appearing on the news section of D2L.

6.3) Any further, constructive comments?

- N/A

- No.

- None

- Overall, I loved this course! Dr. Quiros is a great professor, encourages feedback and questions from his students, and is supportive throughout the learning process. Thanks for a great course!
