Comments Report

6. Open Response:

- ^{6.1)} What are the strengths of this course?
- Able to do course work at my own pace.
- Multiple sources for information Easy navigation of Cengage Appropriate time frame between assignments
- NA
- ^{6.2)} What changes would you recommend that would improve this course?
- I would ask if the teacher could make some videos covering each assignment & then have us do our assignments in MindTap. Right now, we are having to learn our material through a 3rd party source.
- N/A

Na

- There is no instructor involvement, we go to an external site to do the work and that is all. There is not any other activities to help us learn the content.
- ^{6.3)} Any further, constructive comments?
- I feel that it is oddly strange that we had to pay for MindTap to be able to access our assignments! It would be different if we were buying the textbook, but it's like we paid for this class when we registered to make it schedule, and then we have to pay AGAIN to access a website with our course work on it. I understand you have to buy materials in college, but MindTap is where we are learning from and is basically our teacher.
- More instructor involvement.
