# Comments Report

#### 6. Open Response:

- 6.1) What are the strengths of this course?
- I liked that there was plenty of time to finish quizzes and lessons.
- This course offers a great time frame to look over material before taking tests throughout the course
- Viewing course materials on student's timing while staying on top of assignments and exams' due dates. The exams are open note, and the questions are always from the material studied which I greatly appreciate. The instructor is of course very knowledgeable and seems to me that he enjoys/loves the subject he teaches.
- its an important class, very important material to cover
- you can do it on your own time
- 6.2) What changes would you recommend that would improve this course?
- I think the course is great as is, if there's anything else that would make it even better would be maybe a bit more live interaction and/or more videos of the instructor speaking to the students.
- Lots of technical issues like no volume on online lecture materials. The material in tests was not the same as what was displayed for study online.
- N/A
- There are no changes needed
- more assignments that help you understand the materials
- <sup>6.3)</sup> Any further, constructive comments?
- Get your stuff together man the tests are not correlating with learned materials why is that?
- N/A
- This was my first ever online class and I think this course made it a great learning experience.
- nope
