This class is difficult. I am the type of student who doesn't do well with reading and just memorizing everything and taking a test with no notes. Especially when it's multiple chapters of information in one test, it has really had a negative impact on my learning experience for this class. Homework only accounts for a small portion of the grade so my grade is awful since memorizing isn't my forte. I feel like it could be taught in a more broad way to help students like myself retain the information better. I feel like I have learned nothing this semester other than how to manage stress better because this course is a big stress source for me due to how it's set up.
