6. Open Response:

6.1) What are the strengths of this course?

- Ivory Stokes has been one of the best professors i have ever had. she is so organized. She has a great lay out when it comes to what work she puts out each week. She makes it so easy to actually learn and absorb all of the information needed for the course.

- The homework assignments help with preparing for the exams

- The professor created a workbook to go along with the coursework that has helped tremendously! Cengage helps a lot also for this class.

- we do not have strict classes to go to. All the information given is the base for exams and we can try again our homework to reach an A+.

6.2) What changes would you recommend that would improve this course?

- Exams would be based on parts of the body too, not only pathology.

- everything seems to be working well.

- no changes needed at all

- none

6.3) Any further, constructive comments?

- I am usually not good with online classes but now i am starting to think that it is NOT about it being online it has to do with how good of a professor you have. I would recommend Ivory Stokes to everyone. She is amazing!
