6. Open Response:

- ^{6.1)} What are the strengths of this course?
- Professor provided lots of study material that had everything needed to pass every single test. The homework she provided as well, has taught me so much.
- This course has taught medical terminology and information about the body. It will be information I will use for the rest of my career.
- everything is for a grade so there is a bigger weight in case you miss or do not do well on an assignment. There are a ton of assignments that force you to actively learn the material instead of just memorizing it.
- ^{6.2)} What changes would you recommend that would improve this course?
- N/A
- No changes needed.
- None
- ^{6.3)} Any further, constructive comments?
- No
- Would recommend this class and professor to people i know that need to take medical terminology.
