Comments Report

6. Open Response:

6.1) What are the strengths of this course?

- The strength of this course was that it was online and allowed the flexibility to complete assignments and tests.
- There is alot of good material in this class.

6.2) What changes would you recommend that would improve this course?

- I would recommend study guides prior exams and remove time limits on tests. Timed tests make it hard to concentrate when labs are included in the exams.
- This class is an entry level networking class. The students shouldn't be expect to be experts in the field of networking by the end of the first class. Ease off on how much you expect them to accomplish in the 3 hours this class is supposed to take.

6.3) Any further, constructive comments?

- Pr Culbreth responded to all my questions and made herself available when I needed extra help.
- There are too many assignments for the amount of hours this classis supposed to be considered. it shouldn't take 2 full days just to finish the assignments the teacher assigned for that the students to complete that week.
