4.14) Please comment on BC support for online classes.

■ Didn't really utulize any online support so it's hard to say.

5. Course Design
Course activities (assignments, discussions, quizzes)....

5.13) Please add a comment about the course design.

■ The course design was kind of weird in the sense that there'd be PowerPoint notes available that were on track with what we were learning but not really relevant when it came to quizzes on the subject.

8. My instructor....

8.4) Please add any comments you would like to anonymously share with your instructor.

■ I was not impressed with this class. I think we did a handful of assignments and they weren't very clearly presented to us. I wouldn't choose to take a class by this instructor again.

■ The way the instructor grades is kind of off-putting. They put future assignments in and grade them as zeros until they are graded and it makes it kind of confusing to know what your real average is.

9. Final Comment

9.1) The comment box provides a chance to anonymously communicate any specific impressions (either overall impressions or impressions about particular and specific things) to the instructor. Please feel free to write a lot in the comment box since your feedback is probably the single most important way that courses get better from one semester to the next.

■ I was not at all impressed. The instructions were very confusing and there was one assignment I had NO clue what to do on. And instructions were VERY unclear. If given the option, I would have picked a different instructor.

■ The way the instructor grades is kind of off-putting. They put future assignments in and grade them as zeros until they are graded and it makes it kind of confusing to know what your real average is. The way the learning material is set up is also kind of weird. They have PowerPoint notes that can be accessed and are somewhat on track with what you're learning for the week, but when it comes down to the quiz they're not really helpful. Quizzes are open notes/textbook, which is what I enjoyed about it, but I saw myself mostly using the textbook than my notes
