6. Open Response:

6.1) What are the strengths of this course?

- I really enjoyed the pace and ability to work on assignments as I could in the evenings.
- Material set for the course
- Self-paced and instant grades for Cengage.

6.2) What changes would you recommend that would improve this course?

- Despite this subject matter for this course covering an online software program (Microsoft Access), all subject matter should be taught in-person. This is because the students will be able to receive instant feedback if they have questions/problems when learning the material, and they will be able to retain the taught information on Access much better in a classroom with peers and their professor.
- No changes
- None

6.3) Any further, constructive comments?
