Comments Report

6. Open Response:

6.1) What are the strengths of this course?

- Everything is planned ahead and clear when assignments are due.
- I like that there were lecture videos assigned to watch and take notes on before the class period. It made me feel more prepared to ask questions based on the material I could not understand. I like that we are allowed a notecard, front and back, for each exam. Even though I have not utilized a late pass for an assignment yet this semester, I feel that it is a wonderful option to have.

6.2) What changes would you recommend that would improve this course?

- More information about the quizzes.
- Most of the classwork/practice questions we were given in class had an answer key to go along with them, but there were a small few that did not. I know that we are more than welcome to ask the instructor to look over a problem to see if we got the answer right, but I feel like it would be easier on students to already have the key, so that when we are going through problems at home to study, we know whether or not we are practicing the problems correctly without having to email the instructor.

6.3) Any further, constructive comments?

- Grades on quizzes were too harsh, even when i showed my work i still got points taken away.
