## Comments Report

### 6. Open Response:

6.1) What are the strengths of this course?

- All of the material is provided at the beginning of the course and you are told what is expected of you in terms of what determines your final grade.
- Very thorough and to the point.

6.2) What changes would you recommend that would improve this course?

- In my opinion, the fact that there are only 3 grades that make up your final grade in the class is very inconvenient. It doesn't leave any room for improvement if you happen to fail one or more of the quizzes, or simply the final exam.
- Slow lecture down a little to ensure students are keeping up.

6.3) Any further, constructive comments?

- N/A
- Very approachable and understanding.
