6. Open Response:

6.1) What are the strengths of this course?

- I like that you have ample time to get the assignments completed. As an online course this is very important to me and helps me be able to balance, work, kids/homelife on my own time.

- The questions are clever and related to the topics.

6.2) What changes would you recommend that would improve this course?

- Help with the assignments. This course is done on your own and there are things that I have never heard of and the little video you get before the lesson is not helpful at all.

- I would recommend having lectures or audio to accompany the course reading the textbook aloud and the drawings on the course. Sometimes, I had a hard time understanding the concepts.

6.3) Any further, constructive comments?

- The professor needs to be more active in teaching this course and not just relying on the platform to do it for them. The only reason I will pass this course is because of the hours I put in teaching myself by researching and watching YouTube videos.
