2. More Than One Instructor:

2.1) **If your course had more than one instructor,** in the box type the name of the instructor you are assessing. If your course only had one instructor, skip this question.

- ■ Agut

---

6. Open Response:

6.1) What are the strengths of this course?

- ■ Good teacher, well informed.

- ■ His lessons were easy to follow, and his instructions were clear throughout the problems.

6.2) What changes would you recommend that would improve this course?

- ■ Could be a little nicer to students, a little more willing to answer questions.

- ■ I would recommend grading assignments and putting them in the grade book, rather than your grade only concluding three test grades.

- ■ More assignments that could be graded in addition to the tests.

6.3) Any further, constructive comments?

- ■ The tests was challenging because you never knew exactly what would be on the test. I would put much time into studying for the test and obtaining help from the math tutors when needed to complete the assignments and long test reviews. However out of the hundred plus questions, only 15 questions would be on the review.
