6. Open Response:

6.1) What are the strengths of this course?

- I love that the homework was optional. If I needed help on a specific subject matter I could read the textbook and do some of the homework questions but if I fully understood everything I didn't have to waste my time with extra problems. The lectures were very helpful and went at the perfect pace. The tests and quizzes covered everything in the lecture. If I ever felt unprepared it was because I didn't study the material enough, not because he didn't go over it. Overall it was a great course!
- The clear-cut way of teaching.
- The teacher is always available, the class is hard but with enough effort is manageable,

6.2) What changes would you recommend that would improve this course?

- I would take the in person class, online is harder for me, but that is not the teacher's fault
